

INVESTMENT STRATEGY

The Arnott Opportunities Strategy is managed with the intention of delivering annual positive absolute returns, regardless of how any financial market performs. We seek to achieve this through our Asymmetric Investment Approach. In simple terms, asymmetric investing is about producing above average returns with below average drawdowns. We seek to achieve this by;

1. find good investments, and
2. not lose money in the pursuit of realising these good investments.

We strive to achieve asymmetric returns through a thematic investment process. This has four pillars.

1. Find asymmetric themes
2. Invest in the best ideas within those themes
3. Focus on macro drivers for risk & opportunities
4. To generate an asymmetric return profile
