

INVESTMENT STRATEGY

The Arnott Opportunities Strategy adopts an absolute return strategy, focusing on thematic investment opportunities with an equity bias. We seek to achieve the investment objective through our asymmetric investment approach which includes:

- 1. Finding what we perceive to be good quality investments based on our analysis; and 2.
 - Not losing money in the pursuit of realising these investments.

We strive to achieve asymmetric returns through a thematic investment process. This has four pillars.

- Find asymmetric themes; 1.
- Invest in the best ideas within those themes; 2.
- Focus on macro drivers for risk & opportunities; and 3.
- 4. To generate an asymmetric return profile.
